 Our base rates, (a) rates and our Increased Limit Factors are being amended.

Brief description of filing. (If filing follows rates of an advisory organization, specify organization): Our (a) rates have been amended. They are developed using ISO's ELP's. The net effect of the (a) rates revisions is +0.55%. Rates for Owners and Contractors Protective and also for Railroad Protective have been revised and the net effect of these changes is included in the (a) rate change listed above. We are amending our Increased Limit Factors for all tables. The net effect of these revisions is +0.53% for Prem/Ops and -0.7% for Prod/CO. Finally, our base rates have been revised. Our existing rates were compared to ISO's loss costs multiplied with our company multiplier. Codes with no premium were amended to this comparable rate. For classes with premium, we reviewed each class and examined our experience. Classes with poor experience were increased while classes with good experience were decreased. We tried to keep increases and decreases small to avoid excessive changes. (We would like to maintain a stable market for our insureds.) The net effect of these base rate changes is +0.62% for Prem/Ops and +3.09% for Prod/CO.

*Adjusted to reflect all prior rate changes.
